

# **Energy and Storage Systems – Course number: 074703043201**

Dipl. Ing. (FH) Andreas Nenning MSc.

Sommersemester 26  
2026-04-12

## **Course**

- 13.04. Lecture 1: Electrical energy production - History  
16:30 – 18:55, Room U310
- 20.04. Lecture 2: Primary energy markets - Economic, political and environmental  
aspects  
16:30 – 18:55, Room U310
- 11.05. Lecture 3: Generation of electrical energy - Thermal power plants  
15:40 – 18:05, Room U310
- 18.05. Lecture 4: Generation of electrical energy - Renewable power plants  
Energy storage - Application examples  
16:30 – 18:55, Room U407
- 01.06. Lecture 5: Power system control - Blackout startup, Compensation units  
16:30 – 18:55, Room U310
- 08.06. Lecture 6: Electrical energy economics - Operational planing of electrical power  
generation  
16:30 – 18:55, Room U310
- 22.06. Lecture 7: Electrical energy trading - Type of electrical goods, marketplaces  
15:40 – 18:55, Room 410
- 29.06. Lecture 8: Exam  
15:40 – 17:15 Room 406

## Examination

- Written examination, covering each lecture topic
- Questions of understanding, no calculation examples

## Miscellaneous

**Office hour:** After the lectures or by appointment

**Course material:** <https://ilias.fhv.at>

**Course evaluation time:** From 2026-06-29 to 2026-06-30

**Course evaluation link:** <https://my.fhv.at/ais/#/lvevaluation/77119/ane4618>
